Safety directions:

1. When using the vacuum cleaner for the first time, it is advisable to read the manual carefully and keep it in safe place for future use and reference.
2. Before switching it on for the first time, make sure that the dust canister (cup) or the dust filter (in some models) is properly installed.
3. NEVER use the machine without a motor protection FILTER fitted!
4. Only use the vacuum cleaner indoors on **DRY** surfaces.
5. Do not use this vacuum cleaner if it has been dropped, damaged or left outdoors.
6. Do not push the vacuum cleaner over the power cord or use the vacuum cleaner if the power cord or plug is damaged. Please contact the supplier in this instance.
7. Do not touch the plug or use the vacuum cleaner with wet hands.
8. Do not pull or carry this vacuum cleaner by the power cord. Do not use the power cord as a handle or pull the power cord around corners, sharp edges or close a door over the power cord. Do not unplug the vacuum cleaner by pulling on the power cord.
9. Do not vacuum up any flammable or combustible materials (lighter fluid, petrol, kerosene, etc.) Do not use the vacuum cleaner in an area with explosive vapors or liquid.
10. Do not vacuum up coals (hot or cold), cigarette butts, matches or smoking hot burning items or use in an area where there may be harmful fluids (chlorine, bleach, and ammonia drain cleaner).
11. Never use your vacuum cleaner for vacuuming the building material (such as fine sand, lime, cement dust etc.). Absorbed building material can damage your appliance.
12. Do not insert any object into the openings.
13. Keep the opening free from dust, hairs or other objects which might reduce the cleaning power.
14. Keep your hair, loose clothes, fingers and any other body parts away from openings or moving parts.
15. Do not attempt to remove any blockages with a sharp object as this may cause damage to your vacuum cleaner.
16. Do not use the vacuum cleaner with incorrect voltage as this may result in damage or injury to the user. The correct voltage is listed on the ratings label.
17. If there is an abnormal noise, smell, smoke or any other failure or

breakage during the operation, you should turn off the switch and unplug it. Then contact your service center for repairs. Do not attempt to repair it yourself.

- 18.If the power supply cord is damaged, it must be replaced by the manufacturer or a service agent or a similarly qualified person, in order to avoid electric shock.
- 19.This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.
- 20.Ensure that children do not play with the appliance.
- 21.This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and maintenance shall not be made by children unless they are older than 8 and supervised.
- 22.The 3 prong power plug must be removed from the power socket before any maintenance work or parts are replaced.
- 23.This appliance is intended for household use only. It is neither suitable for commercial/industrial nor for outdoor use.
